DETAILED ACTION

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/21/03 has been entered.

Information Disclosure Statement

The related applications cited in the information disclosure statements (IDS) submitted on 4/22/03 and 5/15/03 have been checked by the examiner. A fee of \$180.00 has been charged to the deposit account # 15-0030 for each submission under 37 CFR 1.17(p).

The information disclosure statements (IDS) submitted on 9/22/03 has not been considered by the examiner because an authorization to charge a fee of \$180.00 to the deposit account # 15-0030 has not been given.

Claim Rejections - 35 USC § 112

Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The recitation "the corrector lens of the temperature compensation unit providing a refraction power to the coupled light beam in one of a main scanning direction or a sub-scanning direction on the scanned surface independently" in claims 1 and 3-6, last

Art Unit: 2872

paragraph, is vague and indefinite because the phrase "one of a main scanning direction or (examiner's emphasis) a sub-scanning direction" in the recitation is confusing. Based on the showing and the description of Fig. 3 of the present application a first corrector lens 11 provides a refraction power to the coupled light beam in the main scanning direction independently **and** a second corrector lens 12 provides a refraction power to the coupled light beam in the sub-scanning direction independently. Should "one of a main scanning direction or a sub-scanning direction" be changed to --one of a main scanning direction and a sub-scanning direction-- or --a main scanning direction or a sub-scanning direction--? Claim 2 is rejected in that it is dependent on the indefinite claim 1 and thus inherits the deficiency above.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James Phan whose telephone number is (703) 308-4810. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Drew Dunn can be reached on (703) 305-0024. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0956.
